Internal Semester Assessment – III (ISA-III) Report

Course: FinTech
Project Title: Development of a Sample FinTech Website/Application

Team Members

- Rahul Krishna Velip

1. Title of Concept

FinWise – A Personal Finance Management Platform
Theme Selected: Personal Finance Management

2. Website Structure

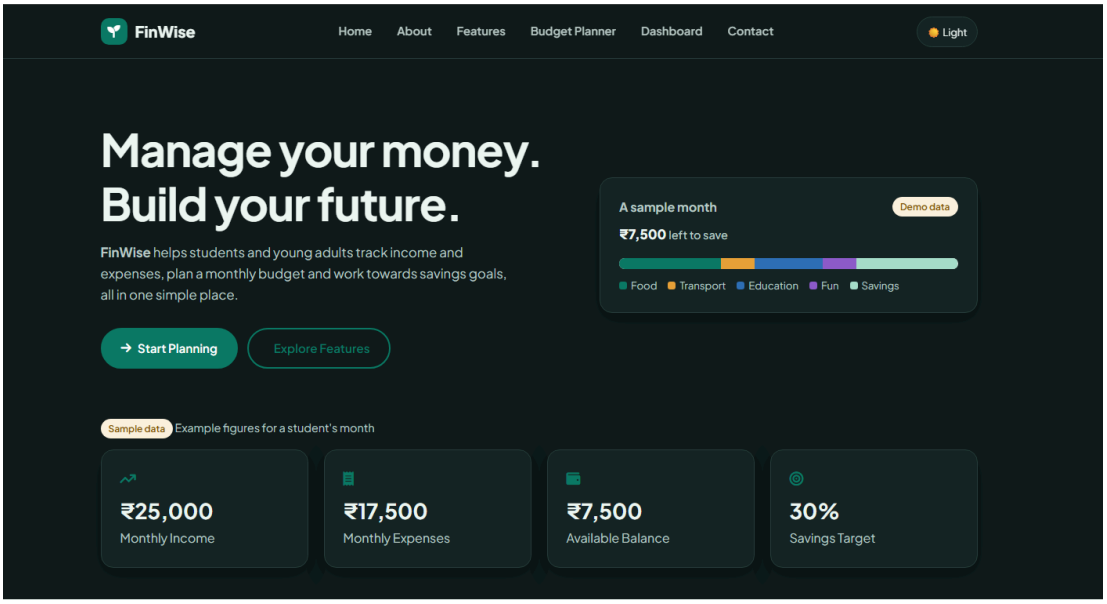

The FinWise application is built with a clear, user-friendly structure containing the following pages:

Page Name	File Reference	Primary Function & Description
Home	`index.html`	Landing page highlighting the platform's purpose, with a sample monthly data visual and calls to action.
About Us	`about.html`	Details the project background, the problem students face with money management, and how FinWise provides a solution.

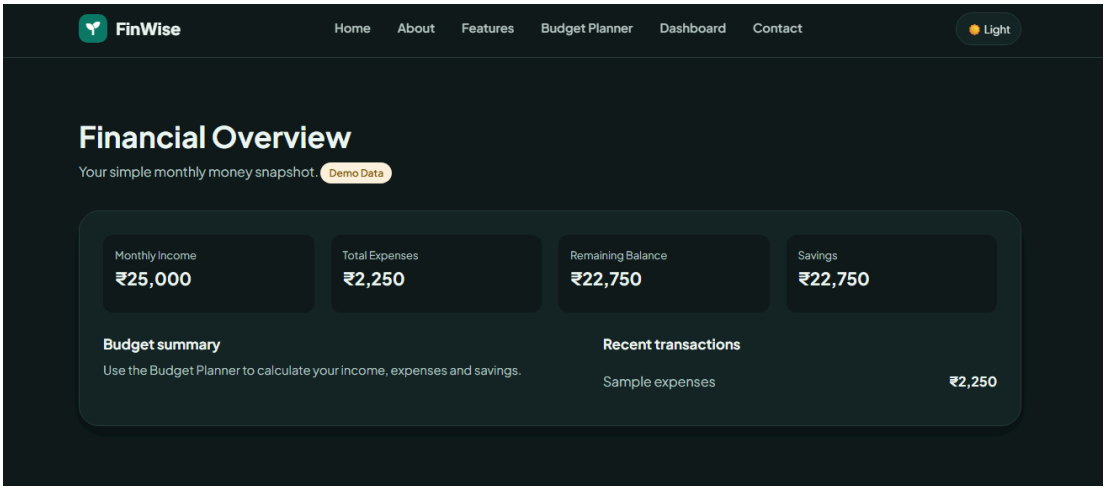

Page Name	File Reference	Primary Function & Description
Services/Features	`features.html`	Outlines core capabilities, including income tracking, expense tracking, budget planning, and savings goals.
Budget Planner	`planner.html`	Interactive tools allowing users to calculate their monthly budget, remaining balance, and estimate timelines for savings goals.
Expense Tracker	`expenses.html`	A functional form to record daily spending by category and view total expenses and transaction history.
Dashboard	`dashboard.html`	A central financial overview displaying the remaining balance, budget summary, and recent transactions.
Contact	`contact.html`	A feedback form for users to send questions or suggestions.

3. Website Mock-up & Screenshots
